١				
١				

List of NET Actions:

- Jack In or Out of a NET Architecture. Jacking Out resets the NET Architecture's defenses. Disconnecting (voluntarily or not) without Jacking Out leaves you vulnerable to all Black ICE you encountered during the run that are still Rezzed.
- Activate or Deactivate a Program. Each Program can only be activated once per Turn. Booster and Defender Programs activate and wait for their stated trigger to perform their function. Attacker Programs activate, perform their stated function, and deactivate as a single action.

• Use Interface Ability (Roll Interface + 1d10):

- o <u>Scanner</u>: Use a Meat Action to find the Meatspace location of nearby access points.
- o <u>Back Door</u>: Attempt to break through a Password of a NET Architecture (roll vs DV of Password).
- <u>Cloak</u>: Hide traces of your presence. Total becomes DV for anyone else to detect that you were there. Always do this before Jacking Out.
- o <u>Control</u>: control devices attached to a NET Architecture (roll vs DV of Node). A Control Node can only be activated once per Turn.
- o <u>Eye-Dee</u>: Identify a found piece of data (roll vs DV of Data).
- o <u>Pathfinder</u>: Partially reveal the "map" of a NET Architecture. Total rolled reveals a number of levels up to the first obstacle whose DV is not beaten.
- Slide: Attempt to flee from Black ICE Programs (roll vs Perception of Program) to an adjacent level (up or down). You can only Slide once per Turn.
- O <u>Virus</u>: Inject a payload into the NET Architecture (lowest level only) to perform up to 2 actions or changes (roll vs. DV as determined by Ref based on complexity). Roll at end of required # of NET actions.
- o <u>Zap</u>: Attack enemy Program (vs. Defense + 1d10) or enemy Netrunner (roll vs. Interface + 1d10). If successful, deal 1d6 Damage.
- **Miscellaneous** (anything not covered by the above)

The following do not require Actions to do:

- Move between levels you have already accessed unless blocked by a Password or Black ICE
- **Save a Copy** of a File
